PRODUCTS & SERVICES / 2026

Turn space into play.

Padel courts, canopies and complete project services.

ModPadel supplies padel courts, canopies and equipment, with services covering site design, installation, operations and ongoing maintenance.

For sports clubs, leisure operators, fitness facilities, schools, developers and investors. From individual product orders to complete facilities.

Concept visual

Courts & canopies

Permanent, panoramic and flexible courts; steel-frame fabric canopies.

Design & installation

Site layout, specification, supply and installation.

Equipment & customisation

Rackets, balls, accessories and bespoke product development.

Operations & training

Guidance and training for owners and management teams.

Maintenance & resurfacing

Court care, repairs and surface replacement.

Sports artificial turf

New-build and refurbishment projects beyond padel.

Permanent court / concept visual

Permanent courts

Long-term courts with layouts and specifications developed for your site. Panoramic options provide clear views through the glass enclosure for players and spectators.

Flexible court / concept visual

Flexible courts

Temporary and flexible solutions for changing site uses. Site suitability, supporting works and relocation arrangements are assessed for each project.

Steel structure / Glass and mesh fencing / Playing surface / Net / Lighting

Canopy exterior / concept visual

STEEL-FRAME FABRIC CANOPIES

ModPadel canopies combine a steel supporting frame with a waterproof outer fabric covering. They can be planned alongside new courts or considered for an existing facility.

Frame and fabric / concept visual

Canopy size, fabric, fixings, drainage and supporting works are specified for the location, site conditions and relevant structural requirements.

Interior / concept visual

Installation setting / concept visual

We coordinate the services within your agreed scope, from site layout and specification to supply and installation.

Site review & layout	Review the space, access and intended use. Develop court positions, circulation, canopy requirements and future plans.
Specification & scope	Agree products, finishes and services. Confirm responsibilities for supporting works, professional inputs and approvals.
Supply & installation	Coordinate products, delivery and installation with site readiness and access. Identify equipment and aftercare needs.

Equipment and customisation / concept visual

Equipment & customisation

We supply padel rackets, balls and accessories for new venues, existing operators and standalone product orders.

Customisation and bespoke product development are available for your venue or brand. Options, development scope and order requirements are agreed for each item.

Rackets

Balls

Bags & accessories

Bespoke products

Operations / concept visual

Operations guidance & management training

Practical support for owners and management teams, covering operating procedures, court utilisation and customer experience. Training is developed around the facility and the team's needs.

Court maintenance / concept visual

Maintenance & repairs

Support for ongoing court care and repair requirements. Photographs, condition details and maintenance records help establish the work to assess.

Court-surface replacement

Replacement of existing padel playing surfaces, with the scope developed around the court condition and the improvements required.

Sports turf setting / concept visual

SPORTS ARTIFICIAL TURF

ModPadel also supplies sports artificial turf for projects beyond padel, including new facilities and refurbishment work.

We develop the requirements around the intended activity, users, area and existing site conditions. Share your plans and approximate dimensions so we can discuss an appropriate project scope.

New facilities / Refurbishment / Surface renewal

Warranty

Warranty periods for ModPadel courts and canopies.

Padel courts
